

APPENDIX E - LOCAL REPORTERS

The following list shows Local Reporters as at 1 October 1999, with NHS Trusts listed according to regional divisions in place at that date. It should be noted that regional boundaries have changed since the 1997/98 data collection period described in this Report.

We appreciate that there are many clinical audit and information departments involved in providing data, although we have in many cases named only the consultant clinician nominated as the Local Reporter.
